

This project identifies and recognizes teachers who make a difference beyond the walls of their classrooms by encouraging students to be part of community programs, conserve nature and the environment, and educate them to be responsible citizens. This is a pilot project where we identify 10 teachers across India who will be provided Rs.1,500 per month for 12 months. They are welcome to use 1/3rd of the amount for their professional development and utilize the rest for projects, creating educational content, buying materials related to education, hosting workshops on topics such as – sustainability, sex education for boys and girls, social responsibility, and social etiquette. This project is found to be beneficial anywhere around the world. The scholarship amount will depend on the geographical location. Currently we are estimating \$25 per teacher/month in India and \$150 per teacher/month in the U.S.
